

What are some nontraditional occupations for women?

A few examples of nontraditional occupations for women are: sheet metal worker, welder, plumber, carpenter, surveyor and road crew just to name a few!

Where can I go to get training for nontraditional occupations?

Mendocino Works can make referrals and provide resources for training in non-traditional occupations that are in demand within the county. Some of these occupations in demand include truck driving, electronics, automotive technology, computer repair, and heavy equipment operator.

Is there somewhere I could get training in other nontraditional occupations?

If Mendocino Works is unable to provide services, staff can assist you in utilizing our resource library to locate information on schools and training services offered within Mendocino County and outlying areas.

What about nontraditional occupations for men?

There is also a growing number of males in nontraditional occupations. Fields that have been traditionally dominated by women are now getting the attention of males. Mendocino Works can make referrals and provide resources for training in nontraditional occupations that are in demand in our county. Some of these include:

- Licensed Vocational Nursing
- Certified Nurses Assistance
- Medical/Dental Office Procedures
- Clerical Fields

did you know . . .

Women represent a very small portion of the skilled crafts labor force. Employment in these traditionally male occupations can lead to higher wages, improved job security, and better long range opportunities than employment in traditionally female dominated occupations.

Training and services for many of the nontraditional occupations for men and women are being offered through Mendocino Works and now have low enrollment levels. Find out if you stand to improve your economic security and independence by participating in the nontraditional occupational training services offered through Mendocino Works.
